PROFILE

I am passionate, outgoing person who has keen interest in website design and development. Since starting programming during college, I found it interesting and fun to solve the challenges I often came across. I'm also a firm believer that research on the latest trends in web development is essential to the creation of a great website.

WORK EXPERIENCE

PINION SOFTWARE CONSULTING AND APPS INCORPORATED

SR. FRONTEND DEVELOPER

February 2018 - January 2022

I was assigned as a Frontend Team Lead to for a project of one of our top client. Having experience of working with other developers around the world helped me a lot to learn different techniques in web development. On this project, we used ReactJS as our library and build around it with the top plugins of react such as redux, draftjs, react-router, react-beautiful-dnd and many more.

GREATFIT SERVICES INCORPORATED

FRONTEND DEVELOPER

August 2017 - February 2018

I maintained and recreated multiple web applications created in old technologies such as jQuery. Optimized by using gtmetrix to assure that the users will have a great time accessing the pages that we are building. I was also assigned to redesign/rebuild the two main application from ground zero using VueJS.

GOLDEN HORSE BUSINESS SOLUTIONS INCORPORATED

SR. WEB DESIGNER/FRONTEND DEVELOPER

July 2015 - May 2017

I maintained and recreated multiple web applications created in old technologies such as jQuery. Optimized by using gtmetrix to assure that the users will have a great time accessing the pages that we are building. I was also assigned to redesign/rebuild the two main application from ground zero. I used VueJS as our
